FOR IMMEDIATE RELEASE

FORMER NEVADA ATTORNEY GENERAL DONATING ONE MILLION COPIES OF NEW MILLENNIAL SAMURAI BOOK

George J. Chanos believes that the best way to prepare for the future, is for today's leaders to educate and inspire tomorrow's leaders.

LAS VEGAS – Former Nevada Attorney General, George J. Chanos, Esq., is giving away one million digital copies of his new book, Millennial Samurai – for free.

In the midst of the COVID-19 pandemic, Chanos wants to give people hope and help build their minds, their confidence and their readiness for the future.

“To survive and thrive in the 21st Century, you will need to pivot and adapt to a rapidly and radically changing environment,” says Chanos about his new book that focuses on a movement to empower people to embrace change.

Chanos explains in his book that America is at a tipping point with radical changes already under way. He says, in a time when we should be planning and preparing for the future, we are instead divided by race, age, sex, religion, economics and identity politics – and we are paralyzed by political dysfunction.

Millennial Samurai is Chanos's way of being part of the solution to these problems. His goal is to guide the Millennial generation, and beyond, to ready themselves for the future as we rise out of the Covid-19 pandemic and encounter what he describes as a “tsunami of technological change on the horizon.”

To receive a free digital copy of the book, visit its website at <https://millennialsamurai.com/>. If you choose to buy a hard copy on Amazon, Chanos will donate one book, to those who can't afford it, for every copy sold.

In November of 2012, Chanos suffered a major heart attack. His brush with death left him resolved to prepare his daughter and nephew for the future. His desire to share what he believes accounted for his own success, resulted in the 2016 publication of his first book, *Seize Your Destiny: Choices That Lead to a Happy, Successful and Meaningful Life*. His desire to prepare his family for a future, that he knew would be nothing like his own past, resulted in eighteen months of research and the 2019 publication of *Millennial Samurai: A Mindset for the 21st Century*.

Chanos served as Nevada's 31st Attorney General from 2005-2007, in that role, he administered Nevada's Department of Justice and acted as the state's chief legal officer. He also successfully (9/0) argued — *Warton v. Bockting*, 549 U.S. 406 (2007) — before the United States Supreme Court.

Prior to serving as Attorney General, Chanos had a distinguished legal career representing individual and corporate clients on all matters relating to growth and management of their businesses.

Today, Chanos resides in Las Vegas as an author, speaker and business consultant. He has served on numerous boards, both civic and corporate and for the last ten years has served as Chairman of Capriotti's Sandwich Shop Inc., with over 100 stores in 19 states, where he advises and mentors his Millennial partners.

Chanos credits 4 core values for laying the foundation for his success – character, courage, commitment and compassion. He then builds upon that foundation by writing about core principals like authenticity, curiosity and choice, that he believes are also essential to success. He encourages readers to embrace critical thinking, guard against their own biases and have an open mind, while introducing them to concepts as diverse as artificial intelligence, advances in genomics, and economic inequality.

“Over the course of my life I have developed a true love of learning,” says Chanos. “I’m naturally curious, resilient, and highly adaptive. I believe that success and survival, in the rapidly and radically changing environment that we are certain to encounter, will require that people develop these same skills and many more, including an ability to learn, unlearn and re-learn and an ability to find opportunity in adversity.”
